

Rectangular fittings – an annex to specifications made in CP-System

<p><b>A rectangular pipe</b></p>	<p><b>A rectangular duct (fit)</b></p>	<p><b>A rectangular truncated duct</b></p>	<p><b>An elbow</b></p>
<p><b>A rectangular bend</b></p>	<p><b>A rectangular bend TYPE2</b></p>	<p><b>A rectangular bend TYPE3</b></p>	<p><b>A rectangular bend TYPE4</b></p>
<p><b>A rectangular reducer</b></p>	<p><b>A rectangular-round reducer</b></p>	<p><b>A fuller</b></p>	<p><b>A fuller (bend)</b></p>
<p><b>A tee-piece</b></p>	<p><b>A tee-piece (simple)</b></p>	<p><b>A reducing tee-piece</b></p>	<p><b>A rectangular-round tee-piece</b></p>
<p><b>A cross</b></p>	<p><b>A cross (simple)</b></p>	<p><b>A reducing cross</b></p>	<p><b>A rectangular-round cross</b></p>
<p><b>A tee-piece branch</b></p>	<p><b>An internal cap</b></p>	<p><b>An external cap</b></p>	<p><b>A flange</b></p>
<p><b>A rectangular coupling</b></p>	<p><b>A rectangular coupling TYPE2</b></p>	<p><b>A round-rectangular tee-piece</b></p>	<p><b>A round coupling</b></p>

Round fittings – an annex to specifications made in CP-System

<p><b>A round pipe</b></p>	<p><b>A round duct (fit)</b></p>	<p><b>A truncated round duct</b></p>	<p><b>A real fitting with a 'nipple' ending (F=0) and a 'muff' ending (E&gt;0)</b></p>
<p><b>An elbow</b></p>	<p><b>A two-segment elbow</b></p>	<p><b>A segmented elbow</b></p>	<p><b>An elbow with revisory door</b></p>
<p><b>A fuller</b></p>	<p><b>A fuller TYPE2 (three-segmented)</b></p>	<p><b>A segmented fuller</b></p>	<p><b>A reducer</b></p>
<p><b>A tee-piece</b></p>	<p><b>A tee-piece with reducer</b></p>	<p><b>A reducing tee-piece</b></p>	<p><b>A round-rectangular tee-piece</b></p>
<p><b>A cross</b></p>	<p><b>A cross with reducer</b></p>	<p><b>A reducing cross</b></p>	<p><b>A taper tee-piece</b></p>
<p><b>A tee-piece branch</b></p>	<p><b>A tee-piece branch (oblique)</b></p>	<p><b>A round cap</b> internal external</p>	<p><b>A round flange</b></p>
<p><b>A muff</b>      <b>A nipple</b></p>	<p><b>A coupling</b>      <b>A taper saddle</b></p>	<p><b>A formed saddle</b></p>	<p><b>A pressed saddle</b></p>
